MAULE'S SEEDS 1944

62.73

JAN 26 1944

WHOLESALE PRICES

FOR MARKET GROWERS, TRUCKERS, FLORISTS

WM. HENRY MAULE
4015 CLARISSA ST. PHILADELPHIA 32, PA.

Cover Subject . . .

There are 13 common vegetable and flower seeds pictured on the cover of this price list. Just for fun, how many can you identify? After you've done your best, look inside the back cover where they are all labeled, and check your score.

Copyright, 1943, by Wm. Henry Maule, Philadelphia

MAULE'S

WHOLESALE PRICES

FOR MARKET GROWERS, TRUCKERS, FLORISTS

This special wholesale price list is for the exclusive use of commercial growers. It quotes larger units and lower prices, where possible than our retail catalog. Varieties shown in this list also appear in our retail seed book. Your copy, giving detailed descriptions, will be sent to you soon.

No "Non-Warranty" Clause

Everything in this catalog is unconditionally guaranteed to give you satisfaction. We can make such a confident statement only because we are sure of the seeds and bulbs we sell. They have been tested and found worthy of sale to the most discriminating gardeners in the world—market growers and florists.

THE MAULE GUARANTEE

We guarantee the vitality and purity of Maule's seeds to the full amount of the purchase price.

We will refill your order or refund—any time within a year—the full amount paid us for seeds, bulbs, or roots, if you are not satisfied with the results.

We send you only the highest quality goods and gladly stand back of them, but, as weather, soil, and care also influence crops, we shall in no case be responsible for any amount beyond the sum you actually pay us for the seeds, bulbs, or roots.

Credit and Terms of Payment

Our terms are cash with order, unless you have an account with us or are satisfactorily rated by the commercial agencies. If you want your seeds sent by parcel post or express C.O.D., or freight, sight draft bill-of-lading attached, ¼ of the value of the order must be sent us as deposit.

Maule Pays the Postage or Express (With certain exceptions noted here)

All flower seeds are sent prepaid, no matter what quantity you purchase. All vegetable seeds are sent prepaid, except for some heavy kinds, on which you pay the transportation charge. The kinds not sent prepaid are: beans, corn, peanuts, peas, sunflowers, asparagus roots, garlic sets, horse radish roots, onion sets, and rhubarb roots. These classes, as well as grass and clover seeds, are marked "not prepaid" in their place in the list. The reason for making an exception of these few kinds of heavy seed and roots is the fact that if we were to quote a price high enough to make it possible to ship to the most extreme parts of the country we would be penalizing purchasers who live near at hand. Therefore we quote the lowest possible price F.O.B. Philadelphia so that our customers need pay no more than necessary to bring the goods to them.

If you wish to have "not prepaid" merchandise sent prepaid with the rest of your order, please enclose sufficient money to cover postage or express charges.

Shipment as Promptly as Possible

Until last year our seed shipments were usually made the same day the order was received, but the overwhelming flood of orders last season, combined with critical labor problems, made us lag behind in deliveries. We are better prepared this year for the tremendous demands the gardeners of this country are going to make, and we hope to fill each order promptly and in full. It would, however, be greatly to your advantage to order at once, observing the limitations placed on certain varieties not available in large quantities.

Most vegetable roots and bulbs are not available in mid-winter because of their perishable nature. Just as soon as we feel that weather will permit shipment delivery will be made.

Free Seeds

Again this year, to wholesale and retail customers alike, Wm. Henry Maule sends a free packet of finest flower seeds. This year's gift is a balanced mixture of red, white, and blue cornflowers (Centaurea cyanus fl. pl.). These flowers are also known as Bachelor's Buttons, and they thrive under almost any conditions. Plants grow about 2 ft. tall. They seem to do particularly well in dry weather, and late plantings will bloom until frost.

Red, White, and Blue Cornflowers

Free Bulbs

For the sixth successive year we make our unusual bonus offer of gladiolus bulbs. This year's variety will be the same lovely Red Giant strain which appeared near the beginning of this series in 1939. No other color has been more popular with our friends.

This is how the bonus of gladiolus is made: For every dollar's worth of merchandise purchased from us before June 1st we will send 2 large, blooming size bulbs free with your order.

The more you buy the more free bulbs you will receive. For market growers with large orders this frequently amounts to several hundred bulbs, of considerable commercial value in themselves.

Red Giant is impressively tall, straight stemmed, and vigorous. It is equal to the best in the number of blossoms, and in the size of the individual blooms, and it possesses a vividness of color almost without comparison in gladiolus. We know you will enjoy your Red Giant glads, and we are pleased to be able to continue to provide you with these bonus gladiolus bulbs.

Red Giant Gladiolus

Maule's Superior Vegetable Seeds

for Market Growers and Truckers

One half lb. of any variety may be ordered at ½ the 1 lb. rate where the price per 1 lb. is 20¢ or more. Where the price per 1 lb. is less than 20¢, ½ lb. will be supplied for 10¢. We will not supply any unit for less than 10¢.

Where bag lots are listed, no less than the quantity stated per bag will be supplied at the bag rate.

ASPARAGUS SEED

4 Mary Washington (Rust-Resistant) ..... *(Cannot supply)*

ASPARAGUS ROOTS

You may order 200 roots or more at the 1000 rate; 2000 roots or more at the 5000 rate.

(Plant either in Spring or Fall; the roots cannot be supplied from June to October.)

Vegetable Soy Beans open a whole new field for the market grower. A small quantity introduced into the community in 1944 will make it possible to plant a sizable area in 1945. They require a minimum of care, hold green a very long time, and are salable when dry.
